## NET PROFIT<sup>1</sup> OF \$363 MILLION

- Net sales revenue \$2.3 billion
- Net profit<sup>1</sup> \$363.0 million and earnings per share<sup>1</sup> 18.8 cents
- Operating cash flow pre interest and tax up 0.4% to \$694.5 million
- Interim dividend of 12 cents per share
- Currency and economic conditions impact wine earnings

### Financial Overview

"Today's result demonstrates the ongoing strength of CUB and the exchange rate impacts and recessionary economic conditions in global wine.

"We maintained strong cash performance with cash flow after dividends up 20.1 per cent to \$187.3 million and group cash conversion increasing 14.8 per cent to 107.3%.

"Foster's balance sheet remains strong with net debt at \$2.2 billion, interest cover of 8.9 times and committed un-drawn facilities of \$1.8 billion.

### Transformation Agenda

"One year on from the wine strategic review, we are doing what we promised, and benefits are being realised across both the beer and wine businesses.

"Our \$100 million cost saving program is on track, delivering approximately \$35 million of benefits in the first half and \$70 to \$80 million expected for the full year.

"The cultural change occurring is marked and sets the foundation for Foster's as a leaner, more effective market competitor.

"We are delivering on our commitments, with the separation of our wine and beer sales force; rationalisation of the non core Australian wine tail brands; sale of non essential vineyards; and delivery of cost savings to plan.

### Business Performance

"CUB's beer portfolio remains Australia's clear leader, with powerful brands driving strong sales growth.

"Over the past six months we have finalised the appointment of the new senior leadership team in the Wine business and we were very pleased to announce the recent appointment of John Pollaers to lead Carlton & United Breweries.

---

<sup>1</sup> Before SGARA (refer page 7)

"The strong Australian dollar has cut first half wine earnings by approximately \$83 million.

"Adjusting for currency the key contributor to the decline in wine earnings was recessionary conditions in Americas.

"Wine consumers have reduced discretionary spending, on premise channels have shown decline, and global over-supply of wine is prompting clearance-level discounting.

"In Australia, the changes we made to the sales team and the creation of end to end businesses in beer and wine are beginning to show benefits.

"Our wine performance has been good in a very tough domestic Australian market - with improved performance from our core labels such as Penfolds, Lindemans, Wolf Blass and Yellowglen.

"As we progress through the financial year we will realise further benefits from the transformation of Foster's.

"I'm confident that over the coming 12 to 18 months, we will see the changes across our business translate into sustained performance improvement.

**Ian Johnston, Chief Executive Officer**

## **Financial Highlights**

Foster's Group Limited (Foster's) today reported first half net profit<sup>1</sup> of \$363.0 million and earnings per share<sup>1</sup> of 18.8 cents.

Recessionary economic conditions in the Americas and Europe and the related strength of the Australian dollar contributed to a 4.4% decline in net sales revenue and a 14.0% decline in EBITS<sup>2</sup>. On a constant currency basis net sales revenue was in line with the prior year and EBITS declined 2.3%.

Foster's Australian and Pacific beer business, Carlton & United Breweries (CUB), had a strong first half with EBITS up 6.6% to \$486.4 million. CUB earnings benefited from strong unit revenue growth that included a contribution from both price and mix. EBITS margins benefited from the realisation of cost savings but importantly there was an increase in first half brand investment.

Unfavourable exchange rate movements and recessionary economic conditions in key international markets impacted global wine EBITS. On a constant currency basis global wine EBITS declined 24.8% with growth in Australia and EMEA offset by declines in Americas, Asia and New Zealand.

Foster's continues to realise benefits from the previously announced cost reduction program with approximately \$35 million of benefits realised in the first half. Foster's expects to realise between \$70 and \$80 million of cost savings fiscal 2010 and remains on-track to deliver the full \$100 million of benefits in fiscal 2011.

Foster's continues to generate outstanding cash flow and cash flow after dividends<sup>3</sup> increased \$31.4 million to \$187.3 million. Cash conversion increased 14.8 percentage points to 107.3% of EBITDAS<sup>4</sup> with CUB cash conversion 89.3% and wine cash conversion 179.5%.

Foster's balance sheet and liquidity are strong. Interest cover in the first half was 8.9 times. At 31 December 2009 gearing was 58.8%, cash was \$352.3 million and committed undrawn facilities were \$1.8 billion.

Since June 2009, net debt declined \$393.7 million to \$2.2 billion and benefited from cash flow and exchange rate movements.

## **Transformation Agenda**

The Transformation Agenda seeks to deliver a sustainable improvement in performance. The program is built on the wine strategic review outcomes announced in February 2009 and incorporates Foster's broader strategic initiatives that are described under the imperatives of capability, efficiency and growth.

Implementation is well advanced: the renewal of the leadership team, separation of the Australian beer and wine businesses and adoption of the new management structure is complete; substantial progress has been made on the realisation of identified cost savings and asset divestments; and initiatives to build business capability and develop a high performance culture are ongoing.

<sup>2</sup> Earnings before interest, tax and SGARA

<sup>3</sup> Operating cash flow before payments associated with significant items after net capex and dividends (refer page 15)

<sup>4</sup> Earnings before depreciation, amortisation, interest, tax and SGARA

**Management Structure** - Foster's new operating management structure separates beer and wine in Australia and integrates sales and marketing activities with respective supply activities in each region. The new structure creates single management responsibility for end to end business units that has significantly improved focus and decision making speed; provided transparency and accountability; and reduced complexity. Foster's reporting segments have been re-aligned to reflect the new management structure.

**Cost Savings** – Approximately \$35 million of benefits were realised in the first half and included reductions in business unit and corporate overheads, procurement savings and initial improvements in manufacturing efficiencies from continuous improvement initiatives.

**Wine Production Network** – Efficiency benefits are being realised from the consolidation of wine production. In California Central Coast wine production has been consolidated at the Paso Robles facility and the reconfiguration of St Helena is complete. In Australia packaging of still wine has largely been consolidated at the Wolf Blass Packaging Centre.

**Vineyard Divestments** – Progress on the vineyard divestment program is ahead of expectations with half of the 36 vineyard properties identified sold at 31 December 2009. Sales of an additional 3 properties have been agreed subsequent to balance date and further sales are expected through the balance of the fiscal year. No earnings impact from the sale of vineyards has been recognised in the first half.

**Culture and People** – Foster's continues the effort to develop a high performance culture with improved training and people management processes and the re-alignment of incentives to better reflect business performance and individual objectives. Particular focus is being directed to the sales and commercial teams in both Australia and the US.

#### Carlton & United Breweries

The transition to a dedicated beer sales force and the implementation of the new management structure that reintegrates responsibility for beer sales and marketing with production activities was completed at the commencement of this fiscal year. CUB now has a unified focus on improving top and bottom line beer performance.

Customer feedback on the sales transition and the new CUB is overwhelmingly positive. The dedicated beer sales structure has restored category focus and significantly simplified sales calls with benefits beginning to emerge towards the end of the period. Anticipated overhead reductions through simplification are being realised.

CUB's brand portfolio continues to lead the regular, premium domestic and premium imported beer categories, as well as the lower carbohydrate and flavoured beer sub-categories and in the cider category<sup>5</sup>.

In Australia the Carlton brand continued to outperform the beer category<sup>5</sup> with net sales revenue up 12.0%. The VB brand maintained the momentum established in the second half of fiscal 2009 with net sales revenue ahead of the prior year. Pure Blonde continues to be the leader in the low carbohydrate sub-segments<sup>5</sup> with growth benefiting from the launch of Pure Blonde Naked Ale. Corona led growth<sup>5</sup> in the premium international category and Crown Lager's volume and net sales revenue were similar with the prior year. In craft beer, the Matilda Bay brand increased net sales revenue by 62% driven by Fat Yak and the December quarter launch of Big Helga. Cider continues to be the fastest growing alcohol category in Australia<sup>6</sup> and CUB's cider net sales revenue increased 13.8%.

## Wine

Three key factors have impacted first half global wine performance. In key international markets recessionary conditions have held back demand and radically affected the on-premise channel. In addition oversupply of Australian and New Zealand sourced wines has contributed to downward pressure on pricing and margin compression across the industry. And exchange rate movements have reduced wine EBIT\$ by approximately \$83 million.

Adjusting for currency the decline in wine earnings is largely attributable to Americas where the impact of recessionary conditions has been most pronounced.

In challenging conditions Foster's is making good progress in the implementation of the Transformation Agenda. The investment in a direct route to market system and enhanced in-market commercial capability is contributing to share gains and improved financial performance in key Nordic, Continental European and Canadian markets. Within the US encouraging mix and share trends are emerging in key states where Foster's transformation is more advanced.

In Australia performance is benefiting from clear management focus following the reintegration of sales and marketing with supply activities. Customer feedback on the transition to a dedicated wine sales force has been positive with strong distribution gains in the on-premise channel. While overall volume in the UK is below prior year, Foster's continues to focus on the development of core brands at premium price points.

## Outlook

Foster's remains committed to its strategic agenda and transformation program. The transition to new business structures and implementation of many of the key initiatives emerging from the wine review are substantially complete. The next phase of Foster's program will drive improving execution and effectiveness.

Growth initiatives now underway include further investments in sales capability to deliver our beer strategy and build on the strong growth and cash flows of CUB. With a dedicated beer sales team now in place and new leadership appointed, CUB is well placed to become a more efficient, competitive and focussed business.

In wine, key initiatives include leveraging new sales capability in Australia to drive growth in distribution of core brands, a commitment to re-invigorate the Australian wine category overseas, establishing a strong regional presence in Asia, building on our strong Canadian position, and extending the excellent Nordics results across Europe.

In the Americas Foster's is progressing the US route to market strategy and will commence implementation of the first phase in June 2010. Prevailing economic conditions remain challenging in the Americas however there are emerging signs of stabilisation. Recent performance improvement in key states provides confidence that momentum will build through the balance of the year.

(b) The allocation of shared fiscal 2009 overhead costs in Australia between CUB and ANZ Wine has also been adjusted to provide a comparable basis for actual overheads being incurred by the separate beer and wine businesses in fiscal 2010. The realignment of overhead costs is consistent with the detailed overhead cost analysis completed as part of the wine strategic review announced on 17 February 2009. In first half 2009 \$31.7 million and for fiscal 2009 \$60.0 million of overhead costs have been reallocated from CUB to ANZ Wine.

**Carlton & United Breweries**

In Australia innovation is contributing to renewed consumer interest in the beer category with industry volume up approximately 1%<sup>6</sup>. Growth in domestic premium, international and low carbohydrate segments is strong with the industry continuing to benefit from positive price and mix trends.

CUB's beer volume in Australia decreased 1.1% and was impacted by lower promotion program participation in the December quarter. Beer net sales revenue per case increased 6.9% with a strong contribution from price and an ongoing benefit from mix. In part strong net sales revenue per case growth reflected a reduced promotional program from last year, and contributed to the small share loss.

Carlton Draught continues to outperform the regular beer category and became Australia's second largest regular beer behind VB<sup>5</sup> in the December quarter. Carlton Draught net sales revenue increased 10.8%. Carlton Dry increased net sales revenue by 63.0% with the "Live Your Dreams" campaign resonating with consumers. Recent innovations Carlton Natural Blonde and Carlton Dry Fusion Lemon also performed strongly.

The VB brand has maintained the momentum established in the second half of fiscal 2009 with net sales revenue ahead of the prior year. Good progress has been made in the half in the long-term

<sup>6</sup> Source: Foster's estimate

reinvigoration of the VB brand with "The Regulars" campaign and launch of VB Raw broadening the brand's appeal.

The Pure Blonde brand increased net sales revenue by 10.1% and benefited from strong Pure Blonde Naked Ale growth.

In the premium category Crown Lager volume and net sales revenue were in line with the prior year and Corona continued to lead international premium growth<sup>5</sup>. In the flavoured sub-segment Carlton Dry Fusion net sales revenue increased 31.3% and benefited from the launch of additional flavours.

CUB continues to deliver a strong innovation program that is targeted at growth segments and at price points that contribute positively to mix. In the low and reduced carbohydrate category recently launched Carlton Natural Blonde and Pure Blonde Naked Ale are performing strongly. The more recent VB Raw is on track with marketing support scheduled to begin in the second half. CUB's performance in the craft beer sub-segment is outstanding. The Matilda Bay brand increased net sales revenue by 62% driven by Fat Yak and the recent launch of Big Helga in the December quarter.

Cider in Australia continues to be the fastest growing alcohol beverage segment<sup>5</sup> and CUB's cider volume increased 9.3% with net sales revenue up 13.8%. Spirits / ready to drink (RTD) net sales revenue declined 14.1%.

In the Pacific, volume declined 2.8%, however on a constant currency basis net sales revenue increased 4.1% and benefited from price and mix. Earnings in the Pacific were below the prior year, impacted by the tsunami in Samoa and unfavourable exchange rate movements.

CUB EBITs increased 6.6% and included a \$13 million benefit from cost reduction initiatives.

CUB's mix adjusted unit cost of sales increased 3.1% with higher glass costs the key factor. In the first half cost of sales increases were below previous guidance for fiscal 2010 with initial benefits being realised from the implementation of Continuous Improvement programs and in procurement. For fiscal 2010 Foster's now expects CUB's mix adjusted unit cost of sales to increase between 3% and 4%.

In the first half brand investment was increased to support new and recently released products, the Carlton Dry "Live Your Dreams" campaign and re-launch of VB. Brand investment in the second half is expected to be in line with historic rates.

CUB continues to realise efficiencies from its production network with cost of sales increases below previous guidance. Upgrades to packaging capability were completed in the first half to provide increased pack size flexibility. CUB customer delivery capability remains outstanding with in-full on-time deliveries maintained at record levels.

### **Rest of World Beer, Cider and Spirits / RTDs**

Rest of world (ROW) Beer, Cider and Spirits / RTDs (BCS) includes Foster's share of profits from African and Eastern joint venture in the Middle East, license and joint venture income associated with the Foster's Lager trademark and income from sales of Foster's product in Americas, Asia, New Zealand and EMEA.

Recessionary economic conditions in key markets in the Middle East and in the US have caused a 17.7% reduction in Foster's Lager volume in these markets. On a constant currency basis equity accounted earnings from Africa & Eastern declined 1.9%.

**Americas Wine**

In the US the recessionary consumer environment continues to have a major impact on the category. Consumers are trading down, have reduced on-premise consumption and are highly price sensitive. Declines in the on-premise channel and independent retail channels have been offset by growth in grocery and clubs channels, but competition is intense; some brands, once exclusive on-premise, are being offered at lower prices through grocery.

In these challenging market conditions, initiatives are being implemented to deliver sustainable performance improvement. A new leadership team is upgrading sales capability and refocusing on core brands to premiumise the portfolio. Foster's is also redefining its relationships with US distributor partners and will commence the implementation of a new route to market footprint in

June 2010. A further initiative has been implemented to improve transparency and visibility of in-market performance, and more effectively align distributor incentives with Foster's channel and portfolio strategies.

Foster's shipment volume in Americas was similar to the prior year with shipments in-line with distributor depletions leaving distributor inventory unchanged. Depletions included strong growth in commercial wines offset by declines in wines retailing above \$US10 per bottle. Through the December quarter depletions of wines priced above \$US10 per bottle began to benefit from increased sales focus.

Volume of California sourced wines increased 4.9% with growth in the Beringer California Collection partially offset by decline in the luxury portfolio. The Beringer brand has regained its position as the largest wine brand in the US<sup>7</sup>. Volume of Australian sourced wine declined 8.3% but Foster's maintained its share of the Australian category.

Sales focus on wines priced above \$US10 per bottle is increasing with solid distribution gains being made in the on-premise and independent retail channel. Growth in Beringer Knights Valley, Penfolds Bins, Stags' Leap and St Clement in the December quarter contributed to a 2.3% increase in shipments of wines that retail above \$US10.

Recently released Colores del Sol is performing strongly and is now leading growth in the small but fast growing Argentinean category in the US. Innovation is a key contributor to category growth and the new management team is embedding an improved innovation process with a focus on wines priced above \$US10 per bottle. Innovation activity will begin to increase through the second half and includes the recently launched Santa Barbara Wine Company brand.

In Canada investment in sales and marketing capability and the transition to direct distribution in Quebec and the Maritime Provinces contributed to an improvement in performance. Volume in Canada increased 1.5% reversing a 15 month adverse trend. The focus on core brands reversed declines in Wolf Blass and Lindemans and contributed to overall share gains in the Australian category.

On a constant currency basis net sales revenue per case declined 6.8% driven by increased price competition and unfavourable mix with lower volume of higher margin wines priced above \$US10 per bottle.

EBITS declined 62.0% to \$43.8 million with a major factor being exchange rate movements. On a constant currency basis EBITs declined 45.3% and was impacted by unfavourable mix, increasing price activity and limited opportunity to recover cost of sales increases. Cost of sales increases were driven by the higher cost 2007 and 2008 Californian vintages.

#### **ANZ Wine**

ANZ Wine performance is benefiting from clear management focus following the reintegration of sales and marketing with supply activities. Performance in Australia was strong with benefits beginning to emerge from improved sales focus following the transition to a dedicated wine sales team in the June 2009 quarter. Customer feedback on the transition has been positive with strong distribution gains in the on-premise channel.

Good progress has been made on portfolio shaping initiatives with the rationalisation of the Australian tail brands identified at the wine strategic review now substantially complete. Innovation continues to be a key enabler of portfolio shaping, channel management and core brand

<sup>7</sup> Source: Nielsen to 9 January 2010

development. Recently released on-premise boutique wines are performing well and a program to develop and release additional channel differentiated products is underway.

In Australia core bottled wine volume, which excludes the impact from tail brand rationalisation initiatives and the discontinuation of cask wine, increased 0.5% with growth in wines above \$11 per bottle. Core bottled wine net sales revenue decreased 0.9% to \$269.1 million. Penfolds, Wynns and Pepperjack benefited from increased sales focus and Yellowglen continued to lead the sparkling category<sup>5</sup> with sustained brand investment and a strong innovation program.

In Australia core bottled wine net sales revenue per case decreased 1.3% with the benefits of positive mix and selective price increases on icon and luxury wines offset by increased pricing activity to meet the challenges of oversupply in Australia and New Zealand.

In Australia EBITs increased 9.7% and included benefits from overhead cost reduction reductions, the implementation of Continuous Improvement programs at key production sites and procurement initiatives.

Trading conditions in New Zealand are challenging. Consumer purchasing reflects the recessionary economic conditions with oversupply contributing to significant price discounting. Unfavourable exchange rate movements have reduced the profitability of Australian sourced wine. For Foster's New Zealand a third of volume is Australian sourced and the outcome was a decline of 16.9%. On a constant currency basis net sales revenue declined 16.2%.

#### **EMEA Wine**

The Nordic and Continental European markets are performing solidly with some improvement in consumer confidence emerging through the half. Trading conditions in the UK and Ireland remain challenging and exchange rate movements have had a significant impact on region profitability and reduced the competitiveness of the Australian category.

Foster's continues to focus on developing the more profitable Nordic and Continental Europe region where Foster's is the Australian category leader in key markets. Investment in these markets has increased with the transition to direct distribution in the Nordics and expanded sales and marketing teams.

Volume in the Nordics and Continental Europe increased 25.7%. Foster's returned to above category growth in Sweden, Norway and the Netherlands with strong growth in the grocery channel in Denmark. Growth is benefiting from improved marketing, promotion and sales execution with increased distribution and listings of Foster's core portfolio the key contributors. Growth is also benefiting from targeted innovation including Lindemans South African wines in the Netherlands, Yellowglen Pink in Finland and Beringer in Denmark. In Eastern Europe and in the on-premise and duty free channels volume was below the prior year.

Volume in the UK and Ireland declined 7.5% with trading conditions in these markets reflecting the severe recessionary economic environment and price driven promotional activity. Foster's is focused on developing premium prices points, investing in the development of the more profitable convenience and impulse channels and reducing costs through local packaging.

On a constant currency basis EMEA net sales revenue per case increased 2.7% with benefits from the move to direct distribution in Nordics partially offset by unfavourable mix and increased pricing activity in the UK and Ireland.

Unfavourable exchange rate movements had a significant negative impact on profitability in EMEA.

On a constant currency basis EBIT increased 114.3% and EBIT margin improved 3.2 percentage points. The key contributors to the improvement in constant currency earnings were the capture of additional margin from direct distribution in key Nordic markets, lower transport and packaging costs from increased in-market packaging, and overhead reductions.

### **Asia Wine**

In Asia Foster's continues to examine opportunities to accelerate growth and has completed the relocation of the Asia senior management team to the regional office in Singapore. In-market sales and marketing capability will be boosted by the investment in an expanded regional team.

Brand and channel mapping has been conducted across all key markets with growth opportunities identified within the existing portfolio and in targeted innovation. Accelerating growth in China is a focus and in the second half Foster's has a strong innovation pipeline.

Recessionary economic conditions have impacted growth in Japan, South Korea and in the on-premise and duty free channels.

Good volume growth in China, Hong Kong, Taiwan, Singapore and Malaysia was offset by declines in Japan, South Korea and Thailand. In Hong Kong and Singapore Foster's has increased share of the Australian category. On a constant currency basis net sales revenue per case increased 4.5% with mix benefiting from strong growth in Penfolds luxury and icon wines.

On a constant currency basis EBIT margin declined 7.3 percentage points to 25.5% and was impacted by lower volume, especially in constrained Penfold vintages.

### **Vintage and Inventory Update**

Mix adjusted unit cost of sales of Australian sourced wines was marginally below the prior year and Californian sourced wines increased 5%.

Grape production in the 2009 Californian vintage is estimated to be 23%<sup>8</sup> above the low yielding 2008 vintage. The increase reflects above average vineyard yields in 2009 and the Californian industry is not in long term structural oversupply. Grape production from Foster's company owned vineyards was up by a similar amount to the overall industry. Foster's intake from all sources was in-line with demand requirements.

Current expectations for the upcoming 2010 Australian vintage are for vineyard yields to be in line with longer term averages. Grape prices are expected to come under further pressure with the vintage likely to increase industry inventory levels. The \$8.1 million SGARA loss recognised in the first half in Australia primarily reflects a lower market value of grapes expected to be harvested from company owned vineyards.

Foster's continues to generate outstanding cash flows with cash flow after dividends increasing \$31.4 million to \$187.3 million.

Cash conversion increased 14.8 percentage points to 107.3% of EBITDAS. CUB cash conversion was 89.3% and for the full year Foster's expects BCS cash conversion to be in line with longer term guidance of between 95 and 100%. Wine cash conversion was 179.5% and in the first half benefited from lower intake of bulk wine and initiatives to reduce finished goods inventories and improve debtor management. For the full year wine cash conversion is expected to be between 90 and 95%.

Net capital expenditure was \$17.2 million with capex of \$55.5 million and \$38.3 million of asset sale proceeds. Major items of capex included upgrades to beer packaging capability, investment associated with Foster's global IT transformation project and purchases of kegs and oak.

Significant item cash flows include payments associated with the implementation of initiatives identified in the wine strategic review with the majority of the remaining cash payments expected to be made in the second half of fiscal 2010.

Dividend payments represent the final 2009 dividend and included the satisfaction of Dividend Reinvestment Plan (DRP) entitlements through the on-market purchases of shares. Foster's intends to satisfy the interim 2010 DRP entitlements via the on-market purchase of shares.

Foster's has a robust balance sheet and strong liquidity. Interest cover in the first half was 8.9 times and at 31 December 2009 gearing was 58.8%, cash was \$352.3 million and committed undrawn facilities were \$1.8 billion.

Since June 2009 net debt has decreased \$393.7 million to \$2.2 billion and benefited from \$187.3 million of cash flow after dividends and \$243.9 million from exchange rate movements.

Net interest expense was \$64.3 million, 23.6% below the first half of fiscal 2009. Net interest expense included an \$8.7 million benefit from exchange rate movements and also benefited from lower interest rates on floating rate debt. Foster's average interest rate in the first half was 5.3%.

Foster's gross debt at 31 December 2009 had an average maturity of 6.8 years, approximately 88% was denominated in US dollars and approximately 42% was at floating interest rates. Liquidity at 31 December 2009 included \$352.3 million of cash and approximately \$1.8 billion committed undrawn bank facilities.

Foster's has \$300 million of Australian dollar denominated medium term notes repayable in March 2010.

Half year report

## Notes to the financial statements

### Note 1 Summary of significant accounting policies

#### Basis of Preparation

This general purpose financial report for the interim half year reporting period ended 31 December 2009 has been prepared in accordance with the requirements of applicable Accounting Standards including AASB 134 "Interim Financial Reporting", the Corporations Act 2001 and all mandatory professional reporting requirements. The half-year financial report has also been prepared on a historical cost basis, except for derivative financial instruments and agricultural assets, which have been measured at fair value. The carrying values of recognised assets and liabilities that are hedged items in fair value hedges, and are otherwise carried at cost, are adjusted to record changes in the fair value attributable to the risks that are being hedged.

This half year financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2009 prepared under Australian GAAP, changes in accounting policy for accounting standard requirements summarised below and any public announcements made by Foster's Group Limited (FGL) during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The financial report has been prepared for the consolidated entity (also referred to as the 'Group') comprising FGL as the parent entity and all its controlled entities. This report is presented in Australian dollars, which is the functional and presentation currency of FGL and its Australian subsidiaries.

#### Statement of Compliance

This financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS).

Compliance with AIFRS ensures that the half-year financial report comprising the financial statements and notes, complies with International Financial Reporting Standards (IFRS).

#### Adoption of new and revised Accounting Standards

The Group adopted the following new and revised Accounting Standards issued by the Australian Accounting Standards Board (AASB) that are relevant to its operations for the half year ended 31 December 2009.

- AASB 8 "Operating Segments", issued February 2007
- AASB 101 "Presentation of financial statements" (revised) issued September 2007
- AASB 123 "Borrowing Costs", (revised) issued June 2007
- AASB 139 "Financial Instruments: Recognition and Measurement" (revised) issued October 2009
- AASB 2008-1 "Amendments to AASB 2, Share-based Payments: Vesting Conditions and Cancellations" issued February 2008
- AASB 2008-2 "Amendments to AASB 132 and AASB 1: Puttable Financial Instruments and Obligations Arising on liquidation" issued March 2008
- AASB 2009-7 "Amendments to Australian Accounting Standards" which includes editorial amendments to AASB 5, AASB 7, AASB 112, AASB 136, AASB 139 and AASB Interpretation 17

With the exception of the "Prior period Accounting Policy change" below, there has been no financial impact of adopting these accounting standards in the current period. The Group has not elected to early adopt any other new Standards or amendments that are issued but not yet effective.

#### Prior period Accounting Policy change

##### *Expensing of promotional activity costs*

The Group has adopted the compiled amendments to AASB 138, "Intangible Assets". The Group now recognises goods or services acquired to provide future economic benefits in the form of promotion activities as an expense when the Group has access to the benefits. Inventory on hand of promotional materials has been reduced by \$2.5 million (nil tax effect) and adjusted against opening retained earnings. The impact to profit and loss in the current and prior period is not material. The change is effective from 1 July 2008.

#### Significant Accounting Policies

Apart from the changes in accounting policy included in these Notes to the Financial Statements, the accounting policies and methods of computation are the same as those adopted in the consolidated financial report for the year ended 30 June 2009.

#### Operating Segments

In February 2009, Foster's announced the outcome of a comprehensive strategic review of its global wine business. The implementation of the recommendations from the review resulted in the Australian Wine and Beer, Cider and Spirits (BCS) divisions being structurally separated to provide greater management focus, organisational simplicity, financial transparency and performance accountability. This change in structure, as well as the adoption of AASB 8 Operating Segments, has resulted in a change in segments reported by the Group. Comparative amounts have been adjusted accordingly.

The Group has identified its operating segments based on the internal reports reviewed and used by the Chief Executive Officer (the chief operating decision maker) in assessing performance and in determining the allocation of resources. These reports, which are reviewed by the chief executive officer on at least a monthly basis, consider the business from both a geographic and product perspective.

The reportable segments are based on operating segments determined by the similarity of the nature of products, the production process, the types of customers and the methods used to distribute the products.

The Group has identified the following reportable segments:

##### *Carlton and United Breweries (CUB)*

This segment is responsible for the sale, marketing and supply of all beer, cider and spirits in Australia, and all operations of beer and wine in Fiji & Samoa.

##### *Australia & New Zealand Wine (ANZ Wine)*

This segment is responsible for the manufacture, sale and marketing of wine within Australia and New Zealand.

##### *Europe, Middle East and Africa (EMEA) Wine*

This segment is responsible for the sale and marketing of wine within the EMEA region.

**Notes to the financial statements**

Foster's Group Limited

Half year report

31 December 2009

**Note 1 Summary of significant accounting policies  
(continued)***Americas Wine*

This segment is responsible for the manufacture, sale and marketing of wine within the Americas region.

*Asia Wine*

This segment is responsible for the sale and marketing of wine within the Asia region.

The results of the beer, cider and spirits operations within the Americas, EMEA, New Zealand and Asian region are not reportable segments and are included within "Rest of the World BCS".

Although EMEA Wine and Asia Wine segments do not meet the quantitative thresholds required by AASB 8, management has concluded that these segments should be reported, given the continued focus on these regions.

*Types of products and services**Beer, Cider and Spirits (BCS)*

Foster's beer portfolio includes brands such as VB, Carlton Draught, Crown Lager and Pure Blonde. In Australia, Foster's also licenses leading international brands including Corona and Asahi. Cider brands include Strongbow and Spirits brands include Cougar, and The Black Douglas.

*Wine*

Foster's wine portfolio includes some of the world's leading premium wine brands such as Beringer, Penfolds, Lindemans, Wolf Blass and Rosemount.

*Accounting policies and inter-segment transactions*

Inter-segment revenues represent transactions between legal entities which are recognised based on an internally set transfer price. The price is set on an arm's length basis which is eliminated on consolidation.

*Corporate charges*

Certain Corporate shared service charges, except for net finance costs, are allocated to each business segment on a proportionate basis linked to segment revenue, to determine a segment result. Unallocated costs are reported in the Corporate segment. Net finance costs are not allocated to segments as the financing function of the Group is centralised through the Group's treasury function.

*Segment loans payable and loans receivable*

Segment loans are initially recognised at the consideration received excluding transaction costs. Inter-segment loans receivable and payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates.

*Other*

It is the Group's policy that if items of revenue and expense are not allocated to operating segments, then any associated assets and liability are also not allocated to segments.

*Major customers*

The Group has one customer whose revenues represent 16% (2008: 13%) of the group's reported revenues. This revenue is recorded as a component of the CUB and the ANZ Wine segment.

**Note 3 Segment results (continued)****Management EBIT\$**

The chief executive officer assesses the financial performance of each segment by analysing the segment's result on a measure of management EBIT\$. Management EBIT\$ is defined as profit from continuing operations excluding the effect of net finance costs, tax, material items and the net profit effects of agricultural assets (SGARA). Corporate charges are allocated to each segment on a proportionate basis linked to segment revenue.

**Segment assets**

Segment assets are those operating assets of the entity that the management committee views as directly attributing to the performance of the segment. Cash, tax and Corporate related assets are not considered to be operating assets and are therefore excluded from segment assets, and instead included in the Corporate/Unallocated column.

Corporate prior period profit before income tax includes \$5.6 million profit from the settlement of residual ALH properties. Disclosure of prior period divested businesses in the discontinued operations segment has ceased in the current and prior periods.

The decrease in non-current assets is primarily the result of movements in exchange rates and 30 June 2009 material write-downs.

#### Disputed tax assessments

On 29 June 2007 the Group received assessment notices from the Australian Commissioner of Taxation (the Commissioner) for primary tax of \$548.7 million and penalties and interest of \$302.0 million. The assessments are attributable to the 1995 to 2004 income tax years and relate to the utilisation of tax losses associated with the funding of the Elders Finance Group (EFG) in the 1980s and 1990s. Foster's is disputing these assessments. Foster's view of the positions adopted by the Commissioner is that its potential maximum exposure in relation to these and related assessments is limited to \$545.7 million, comprising \$340.9 million for primary tax and \$204.8 million for penalties and interest. The matter was heard in the Federal Court in June 2008. Judgment was delivered in favour of Foster's in November 2009. The ATO has appealed the decision to the Full Federal Court. The date for the hearing of the appeal is yet to be set. The Group remains confident of the position it has adopted.

Part payment of the disputed tax assessments was required pending resolution of the dispute. The total amount paid by the Group in respect of the assessments is \$253.6 million. This amount is fully refundable in the event that the matter is resolved in favour of Foster's. This amount has been recorded on the statement of financial position as a receivable.

The Group has certain undisclosed tax losses associated with the litigation. These losses are in nature similar to those under dispute and may become available if the litigation is successful.

### Note 11 Recoverable amount of cash generating units (CGUs)

As at 31 December 2009, each CGU was tested to determine whether there was any change in the recoverable amounts reported at 30 June 2009. The test for impairment involved an assessment of whether additional impairment exists, as well as any indication that the impairment loss recognised in the prior period for assets other than goodwill no longer exists or may have decreased. The assessment concluded that the carrying values of assets remained appropriate and no current period adjustment through profit and loss was required.

The Group's CGUs have changed as a result of the adoption of AASB 8 "Operating Segments", and are now:

- Carlton & United Breweries (CUB) which incorporates Foster's beer, cider, spirits (BCS) business in Australia and Foster's operations in Fiji and Samoa
- Australia and New Zealand (ANZ) Wine
- Americas Wine
- Europe, Middle East and Africa (EMEA) Wine

Recoverable amounts for each of the CGUs are sensitive to changes to any of the noted key assumptions. The key assumptions used in determining recoverable amount under the fair value less costs to sell and value in use tests are:

Cash flows – Future cash flows are based upon the most recent Board-approved long-term plan, and reflect the Group's best estimate of future business performance for each of the Group's CGUs. Trading conditions and supply/demand imbalances in the wine business continue to be significant business risks and further volatility may impact actual cash flows resulting in a material difference to recoverable amounts.

Pre-Tax discount rate - Future cash flows have been discounted using a rate of 12.3 per cent (30 June 2009: 12.0 per cent).

Long term growth rate – Cash flows beyond a five year period have been extrapolated using a growth rate of 3.0 per cent (30 June 2009: 3.0 per cent). The growth rate does not exceed the long term growth rate for the industry in which the CGU operates.

Exchange rate – The fair value less costs to sell CGU tests converted forecast foreign currency cash flows at the exchange rate expected to be in place at the time of the forecast transaction. Most foreign currency cash flows are denominated in USD and GBP. The recoverable amount test included a forecast USD exchange rate of A\$1 = USD 0.89 for 2010 declining over a five year forecast period to A\$1 = USD 0.80 (30 June 2009: A\$1 = USD 0.71 graduating up over a five year forecast period to A\$1 = USD 0.73) and a GBP exchange rate of A\$1 = GBP 0.56 for 2010 graduating down over a five year forecast period to A\$1 = GBP 0.47 (30 June 2009: A\$1 = 0.43 graduating up over a five year forecast period to A\$1 = GBP 0.46).

A material difference to recoverable amount may also result from applying a different discount rate, exchange rate or long-term growth rate assumption to the recoverable amount calculation.

Half year report  
31 December 2009

**Foster's Group Limited**  
**Directors' declaration**

---

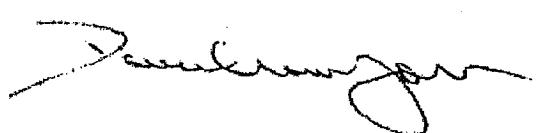

The directors declare that the financial statements and notes for the consolidated entity:

- a. comply with Accounting Standard AASB 134 "Interim Financial Reporting", the Corporations Act 2001 and other mandatory professional reporting requirements; and
- b. give a true and fair view of the consolidated entity's financial position as at 31 December 2009 and of its performance, as represented by the results of its operations and its cash flows, for the half year ended on that date.

In the directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This report is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the Directors.

Dated at Melbourne this 16th day of February 2010.

**Independent auditor's review report to the members of  
Foster's Group Limited**

**Report on the Half-Year Financial Report**

We have reviewed the accompanying half-year financial statements of Foster's Group Limited, which comprise the statement of financial position as at 31 December 2009, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, other selected explanatory notes and the directors' declaration for the Foster's Group (the consolidated entity). The consolidated entity comprises both Foster's Group Limited (the company) and the entities it controlled during that half-year.

*Directors' responsibility for the half-year financial report*

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

*Auditor's responsibility*

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2009 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Foster's Group Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. It also includes reading the other information included with the financial report to determine whether it contains any material inconsistencies with the financial report. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our review was not designed to provide assurance on internal controls.

Our review did not involve an analysis of the prudence of business decisions made by directors or management.

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001.

*Conclusion*

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Foster's Group Limited is not in accordance with the Corporations Act 2001 including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2009 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and Corporations Regulations 2001.

**FOSTER'S AND GRUPO MODELO EXTEND 22 YEAR PARTNERSHIP**

Foster's Group Limited (Foster's) and Grupo Modelo, brewer of Mexico's leading exported beer Corona Extra, today executed an early extension to an exclusive license to sell and market Corona Extra in Australia.

Since 1988, Corona Extra has grown to become Australia's number one premium imported beer and the seventh largest beer brand by value in the Australian market.

"We have a longstanding relationship with CUB and we're delighted it is set to continue", said Mr Jose Pares, Global VP Sales and Marketing. "We are extremely pleased with Corona Extra's performance in Australia and are confident CUB will continue to manage Corona Extra for future growth."

"Corona is a lead brand in the CUB portfolio and we're delighted to cement our partnership with Grupo Modelo," said Mr Johnston, CEO Foster's Group. "We value this extended long term agreement and are proud to have built the Corona brand into Australia's favourite imported premium beer."

### **NEW SEGMENT REPORTING STRUCTURE**

Foster's Group Limited (Foster's) today released fiscal 2009 comparative financial information in the segment reporting structure to be adopted in fiscal 2010. The segment reporting change affects only segment composition and does not change Foster's fiscal 2009 results as previously reported to the market.

The revised segment reporting incorporates the requirements of AASB 8 Operating Segments and reflects changes to the management structure announced as part of the wine strategic review.

Foster's revised segment reporting includes financial information on the following business operations:

- Carlton & United Breweries (CUB) which incorporates Foster's beer, cider, spirits (BCS) business in Australia and Foster's operations in Fiji and Samoa
- Australia and New Zealand (ANZ) Wine
- Americas Wine
- Europe, Middle East and Africa (EMEA) Wine
- Asia Wine
- Rest of world BCS which incorporates Foster's BCS activities in EMEA, Americas, Asia and New Zealand
- Corporate

The allocation of shared fiscal 2009 overhead costs in Australia between CUB and ANZ Wine has also been adjusted to provide a comparable basis for actual overheads being incurred by the separate beer and wine businesses in fiscal 2010. The realignment of overhead costs is consistent with the detailed overhead cost analysis completed as part of the wine strategic review announced on 17 February 2009. In first half 2009 \$31.7 million and for fiscal 2009 \$60.0 million of overhead costs have been reallocated from CUB to ANZ Wine.

Foster's will report first half fiscal 2010 results on 16 February 2010.

## Foster's Group Limited

## New Segment Reporting Structure

### *Operating Segments*

In February 2009, Foster's announced the outcome of a comprehensive strategic review of its global wine business. The implementation of the recommendations from the review resulted in the Australian Wine and Beer, Cider and Spirits (BCS) divisions being structurally separated to provide greater management focus, organisational simplicity, financial transparency and performance accountability. This change in structure, as well as the adoption of AASB 8 Operating Segments, has resulted in a change in segments reported by the Group. Comparative amounts have been adjusted accordingly.

The Group has identified its operating segments based on the internal reports reviewed and used by the Chief Executive Officer (the chief operating decision maker) in assessing performance and in determining the allocation of resources. These reports, which are reviewed by the chief executive officer on at least a monthly basis, consider the business from both a geographic and product perspective.

The reportable segments are based on operating segments determined by the similarity of the nature of products, the production process, the types of customers and the methods used to distribute the products.

The Group has identified the following reportable segments:

#### *Carlton and United Breweries (CUB)*

This segment is responsible for the sale, marketing and supply of all beer, cider and spirits in Australia, and all operations of beer and wine in Fiji & Samoa.

#### *Australia & New Zealand Wine (ANZ Wine)*

This segment is responsible for the manufacture, sale and marketing of wine within Australia and New Zealand.

#### *Europe, Middle East and Africa (EMEA) Wine*

This segment is responsible for the sale and marketing of wine within the EMEA region.

#### *Americas Wine*

This segment is responsible for the manufacture, sale and marketing of wine within the Americas region.

#### *Asia Wine*

This segment is responsible for the sale and marketing of wine within the Asia region.

The results of the beer, cider and spirits operations within the Americas, EMEA, New Zealand and Asian regions are not reportable segments and are included within "Rest of the World BCS".

Although EMEA Wine and Asia Wine segments do not meet the quantitative thresholds required by AASB 8, management has concluded that these segments should be reported, given the continued focus on these regions.

### *Types of products and services*

#### *Beer, Cider and Spirits (BCS)*

Foster's beer portfolio includes brands such as VB, Carlton Draught, Crown Lager and Pure Blonde. In Australia, Foster's also licenses leading international brands including Corona and Asahi. Cider brands include Strongbow and spirits brands include Cougar and The Black Douglas.

#### *Wine*

Foster's wine portfolio includes some of the world's leading premium wine brands such as Beringer, Penfolds, Lindemans, Wolf Blass and Rosemount.

### *Accounting policies and inter-segment transactions*

#### *Inter-segment revenues*

Inter-segment revenues represent transactions between legal entities which are recognised based on an internally set transfer price. The price is set on an arm's length basis which is eliminated on consolidation.

#### *Corporate charges*

Certain Corporate shared service charges, except for net finance costs, are allocated to each business segment on a proportionate basis linked to segment revenue, to determine a segment result. Unallocated costs are reported in the Corporate segment. Net finance costs are not allocated to segments as the financing function of the Group is centralised through the Group's treasury function.

#### *Segment loans payable and loans receivable*

Segment loans are initially recognised at the consideration received excluding transaction costs. Inter-segment loans receivable and payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates.

#### *Other*

It is the Group's policy that if items of revenue and expense are not allocated to operating segments, then any associated assets and liability are also not allocated to segments.

#### *Management EBITs*

The Chief Executive Officer assesses the financial performance of each segment by analysing the segment's result on a measure of Management EBITs. Management EBITs is defined as profit from continuing operations excluding the effect of net finance costs, tax, material items and the income statement effects of agricultural assets (SGARA). Corporate charges are allocated to each segment on a proportionate basis linked to segment revenue.

#### *Total Assets*

Segment assets are those operating assets of the entity that the management committee views as directly attributing to the performance of the segment. Cash, tax and Corporate related assets are not considered to be operating assets and are therefore included in the corporate/unallocated column.

**Re: Notice of Interests of Substantial Shareholder under Section 671B**

Company Secretary:

Enclosed is a Form 603 dated 29 January 2010. Please note that a copy of this report has been sent to the Australian Stock Exchange.

The Capital Group Companies, Inc. ("CGC") is the parent company of Capital Research and Management Company ("CRMC"). CRMC is a U.S.-based investment management company that manages the American Funds family of mutual funds. CGC is also the parent company of Capital Group International, Inc. ("CGII"), which in turn is the parent company of five investment management companies: Capital Guardian Trust Company, Capital International, Inc., Capital International Limited, Capital International Sàrl and Capital International K.K. Each of these investment management companies acts separately from the others and from CGC in exercising investment discretion over its managed accounts.

Neither CGC nor any of its affiliates own shares of your company for its own account. Rather, the shares reported on Form 603 are owned by accounts under the discretionary investment management of one or more of the investment management companies described above.

For the purposes of this Notice an outstanding share balance of 1,930,403,911 shares was used to calculate the percentages of holdings of the relevant share capital. We believe this outstanding share balance is current; however, if this number is not accurate, please contact us as soon as possible so that we may make the necessary revisions to this Notice.

Should you have questions or require additional information, please contact Gina Martinez or Vivien Tan at (213) 615-0469 or send a fax message to (213) 486-9698. Alternatively, you may contact us via E-mail at [GRGroup@capgroup.com](mailto:GRGroup@capgroup.com).
